Dose Flip Smart Pill Box

A smart pillbox for increased independence.

The Dose Flip is a smart pill box that can help anyone take the right medication at the right times. At the scheduled time, the Dose Flip will sound an alarm and flash light. To dispense, the individual simply flips the pill box over into their hand or a cup and takes the medication.

OrCam Read

For Low Vision and Age-Related Vision Loss

OrCam Read is a first-of-its-kind handheld device with a smart camera that seamlessly reads text from any printed surface or digital screen.

- Full Page Capture - Unlike all other devices where you must scan word-by-word, OrCam Read captures full pages.
- Laser Guidance - Two intuitive laser guidance options: Capture a specific block of text or choose where to begin reading.
- Read Instantly - Including: newspapers, books, menus, signs, product labels and screens.
- Bright LED Light - Makes reading easy in dimly lit environments.
- Smart Reading - Simply ask for the text that interests you. "Read the headlines," "Read amounts," or "Start from" a specific section.
- Easy-to-use - Intuitive device, simply point and click, that is all there is to it

PFM Pro and PFM PRO RCH

Personal Listening System

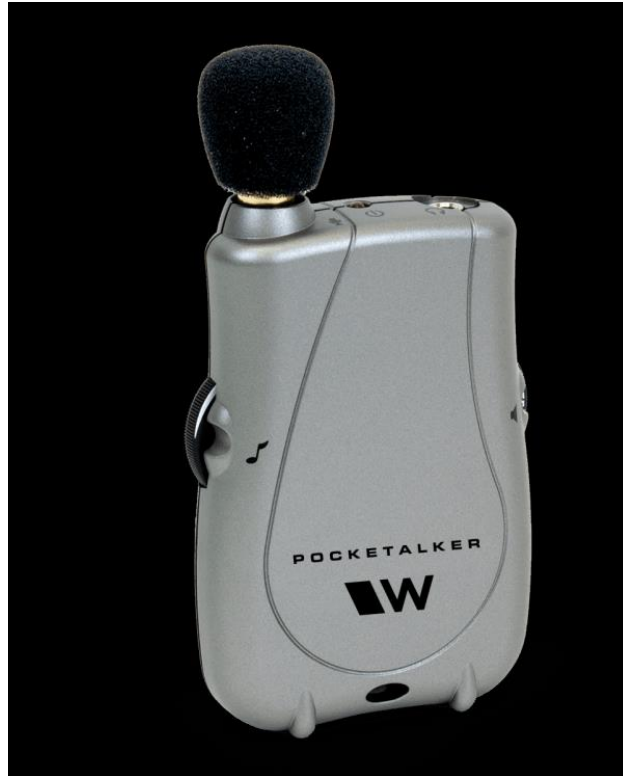

Wireless, radio-frequency systems are ideal for large group listening scenarios to help individuals overcome background noise, reverberation, and distance from the sound source. This easy plug and play option allows users to connect to a channel using one of Williams AV's reliable receivers to hear audio up to 1000ft (300m) away from the source. Our receivers are neckloop/telecoil-equipped hearing aid compatible making it easier for everyone to hear at large group events. The receiver comes with earphones and batteries.

UbiDuo 3

Face to Face Communicator

The UbiDuo 3 makes it easier than ever for people who are deaf or hard of hearing to participate in a dynamic, fully engaged, face-to-face conversation with the rest of the hearing world. Our talented engineering team has refined and enhanced several of the original UbiDuo features, such as the real-time split screen interface and the encrypted low-frequency wireless radio signal between the two halves. The patented hinge system has been revamped into the new finger loop hinge; the color screen has evolved from a resistive touch screen to a much more responsive capacitive touch screen.

Serene Innovations CentralAlert CA-CX Phone Signaler

Phone Signaler

The Serene Innovations CA-CX is a visual flashing signaler for cell phone and landline phone calls. It detects vibration notifications from your cell phone (i.e., phone calls, FaceTime calls, text messages, etc.) and then alerts you to those notifications through an extra loud ringer and/or bright flasher. Connect the [optional bed shaker](#) to be notified by vibrations even when you sleep!

Google Nest Cam

Camera

Nest Cam has built-in intelligence to send you alerts for people, animals, and vehicles. With Nest Aware, it will even recognize familiar faces. Select an area you want to check on around or in your home, like your driveway or living room, and then customize which alerts you will receive.

HDR and night vision help with bright, high-contrast sunlight, and give you a better image even in low light and darkness. Day or night, you can easily tell who is on or near your property. If you miss a notification, you can still see what happened with 3 hours of free event video history. And you can add a Nest Aware subscription to get up to 60 days of event video history and 10 days of 24/7 video history.

BIG Candy Corn Switch

Switch

The BIG Candy Corn accessibility switch uses highly sensitive proximity sensor technology for activation. Any time the user is near or touching the activation surface, the BIG Candy Corn accessibility switch will activate. Individuals with fine motor impairments or low vision prefer the BIG Candy Corn over the LITTLE Candy Corn accessibility switch because it has an activation surface two times the size. When activated, an auditory beep and light appear. You may turn off the auditory beep and light if the user does not need these prompts.

iTalk 2

Speech Device

The easiest way to provide an individual with two side-by-side communication choices is with the iTalk2 speech device. Activate the red or yellow top to play the desired message. New messages are easily and quickly recorded to the iTalk2 on the fly, or use the levels pre-record up to three sets of messages ahead of time.

- Includes ableCARE on-demand support
- Built ableSTRONG to endure drops and other environmental conditions
- Made from ableSAFE materials and tested by third-party safety labs

Common Uses

- Use for yes and no responses
- Choose between two options of food, drink, or activities
- Provide a way to make two unique requests like "I need help" and "I'm done"
